# ABOUT US

We at Container Design Africa Ltd repurpose shipping containers into usable spaces suitable for Commercial or private use by Building Sustainable, Green and environmentally Friendly units.

alternatively we offer solutions of Prefabricated units in custom shapes and sizes.

Our focused on innovation and we aim to offer the highest international manufacturing standards. Our range includes Solutions for Commercial, industrial and remote camp construction.

CDA offers the full scope from design, manufacture, transportation and the installation of the units on site.

We offer both sell and lease options and we are able to meet most client requirements, supplying units anywhere in Eastern Africa.

CONTAINER  
DESIGN AFRICA

# PREFAB CLASSROOM

A type of modular building that is constructed off-site and then transported and assembled on the location where it will be used. Prefab classrooms are often used as a cost-effective and efficient solution for schools and other educational facilities that need to expand their capacity quickly.

Prefab classrooms can be designed and built to meet a variety of needs, including accessibility requirements and energy efficiency standards. Some prefab classrooms can also be easily disassembled and moved to a new location if needed.

# PREFAB OFFICE

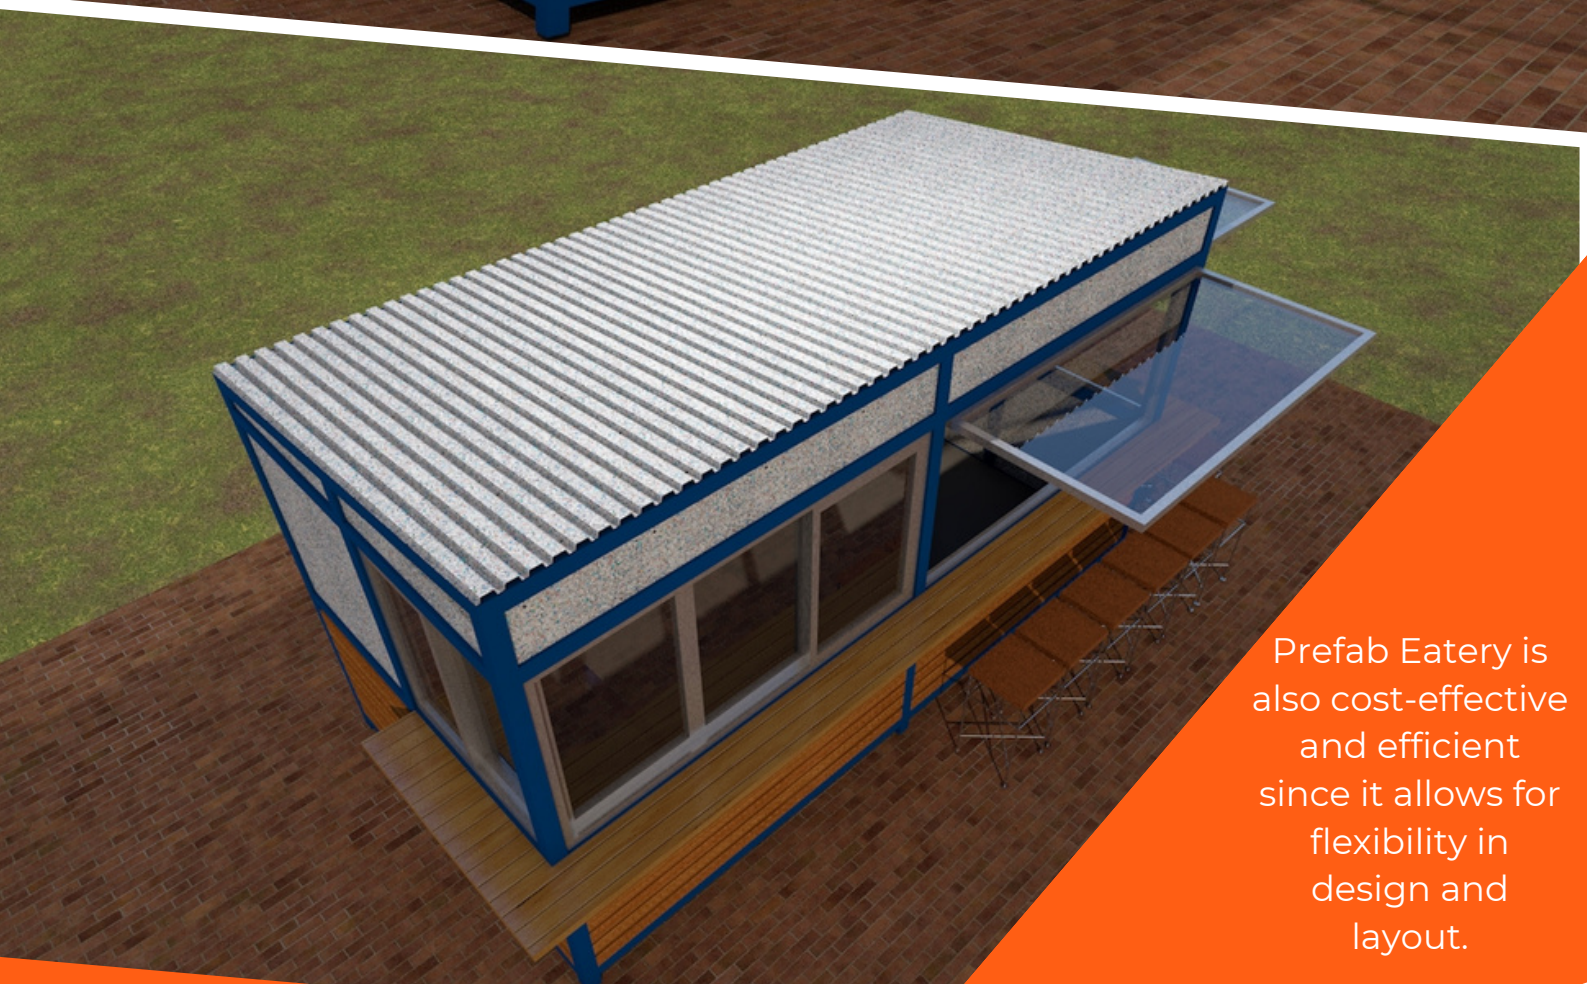

A cost-effective and efficient solution for businesses that need to expand their capacity. They can be designed and built to meet a variety of needs, including accessibility requirements. They are also flexible in terms of design, can be customized to fit the company's specific needs, such as size, layout.

# PREFAB EATERIES

They can be used for a variety of different food service applications, including fast food restaurants, convenience stores, and food trucks. They can be an efficient and cost-effective way to construct a new eatery, as they allow for faster construction times and can be customized to meet specific design and functionality requirements.

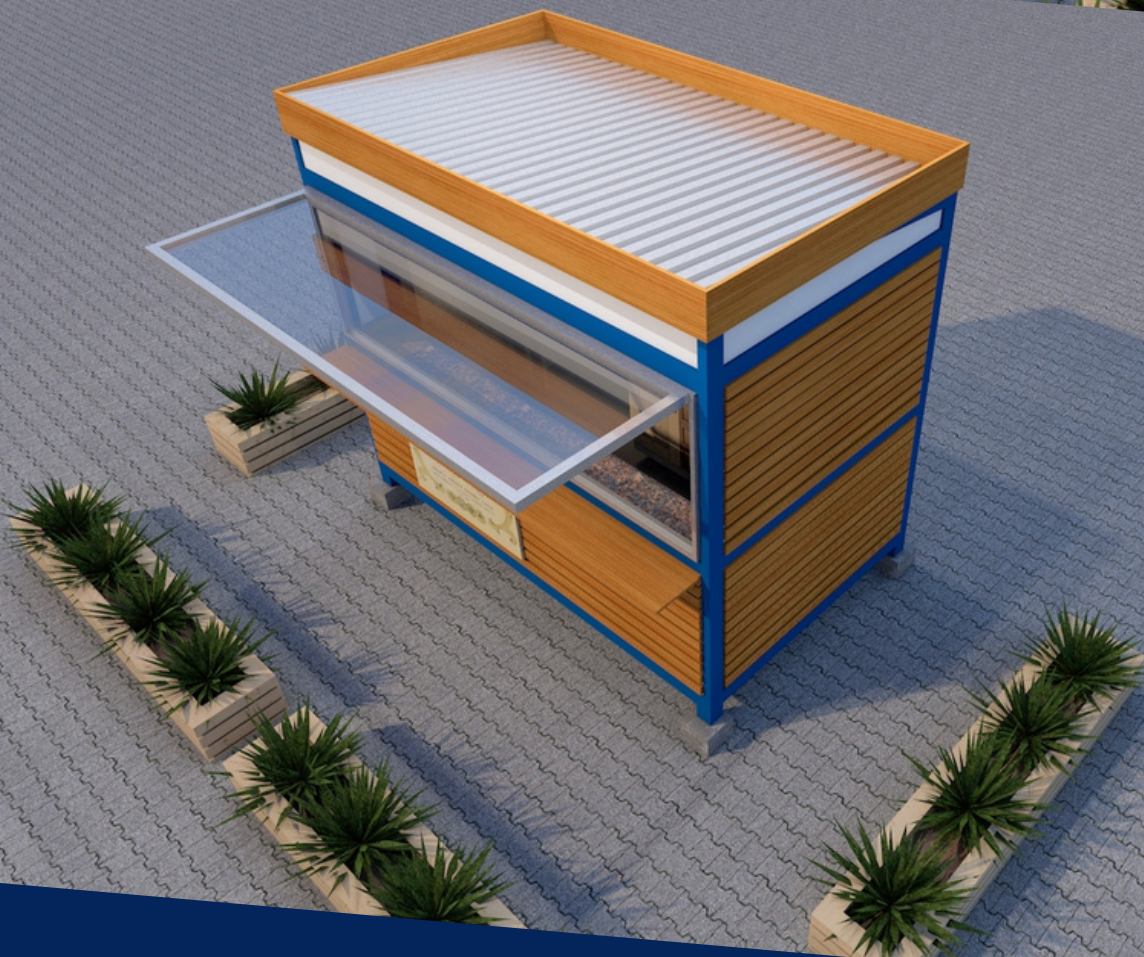

Prefab Eatery is also cost-effective and efficient since it allows for flexibility in design and layout.

# PREFAB KITCHEN

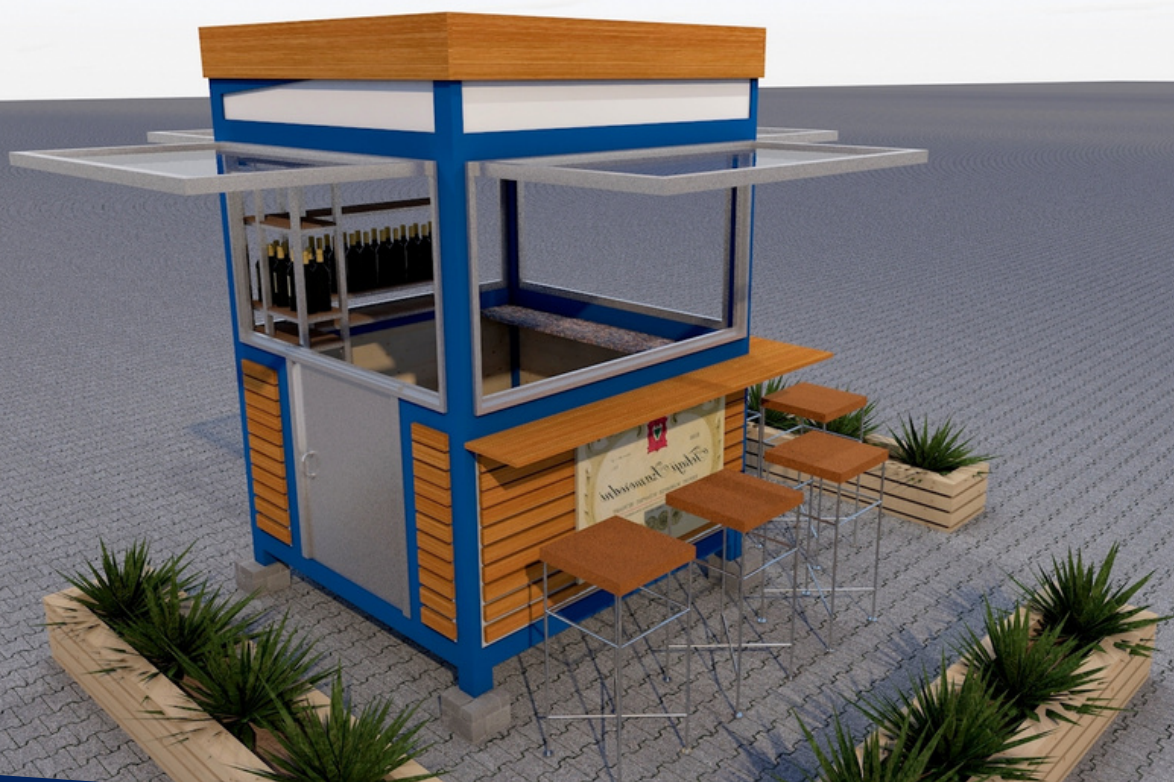

Pre-manufactured and ready to be assembled on site. Prefab kitchens are designed to provide a functional and efficient workspace for chefs and kitchen staff. These kitchens can be fitted with cabinetry and countertops.

## PREFAB KIOSK

A pre-manufactured structure that is used as a small, standalone building for various purposes such as retail sales, information dissemination, or ticket sales. These kiosks are typically modular and can be easily transported, assembled, and installed in various locations, making them a popular choice for businesses and organizations that need a temporary or semi-permanent structure.

# PREFAB TOILETS

They are designed to be self-contained and include features such as toilets, sinks, and sometimes showers. They can be connected to existing water and sewage systems or be equipped with their own holding tanks and pumps. They are also considered eco-friendly as they are easy to move and reuse.

2-4 Booths is  
our best seller

# PREFAB SECURITY BOOTHS

They are designed to provide a secure and comfortable working environment for security personnel. The security booths are customizable to meet the specific requirements of the site, such as size, layout, and features. They are equipped with lighting and power and can be designed to be expandable or movable.
